591

S. S. S. R. 14. W. 2nd Mer End^{ed},

once practised here 9 days
trying to make a survey and
if he found any thing I con-
clude he kept it a perfect
secret for I find no marks
of a survey left behind him
Oct 31st 1844,

N. S. Squibb S.S.

Surveyor General's office,
Detroit March 17. 1846.

I hereby certify
that the foregoing Transcript
of the Field Notes of the Township
No 8. S. R. 14. W. of 2nd Mer End^{ed}
has been compared with the
Original Notes in this office and
found to be correct.

Lucius Lyon,
Surveyor General.

Received at Genl Land Office Washington D.C. with Aaron Baker's letter of Aug^h 21. 1868.

Indiana

I, Aaron Baker, having been appointed a Deputy Surveyor for the survey of Yellow Pond in Sections 4, 5, 8 and 9 in Township cto. 8 South, of Range cto. 14 West, 2nd Meridian, Indiana, do solemnly swear that I will well and faithfully, and to the best of my skill and ability, execute the duties confided to me pursuant to Special Instructions from the Commissioner, General Land Office, bearing date June 16, 1868, (16. day of June 1868) according to the laws of the United States and the instructions received from the said Commissioner. Witness my hand this 26th day of July 1868,
Aaron Baker.

State of Indiana,

Posey County sct.

I, William Chelson, Clerk Posey Circuit Court in said County & State do hereby certify that the above named Aaron Baker appeared before me & took & subscribed the oath as above, on the 26th day of July, A.D. 1868, Witness my hand and Seal of said Court at Mt. Vernon, this 26th day of July, A.D. 1868,
William Chelson,
Clerk.

We, Zachariah Stettelton and David Sepler do solemnly swear that we will faithfully execute

Seal

the duties of Chain Carriers;
that each of us will level
the chain upon uneven ground,
and plumb the tally-pins, whether
by sticking or dropping the same;
that we will report the true
distance to all notable objects,
and the true length of all lines
that we assist in measuring,
to the best of our skill and
ability. Witness our hands
and seals this 26th day of July
1868,

David Sepper,
Zach. Stettleton.

State of Indiana, Posey County, Ind.
Subscribed and sworn to before
me, Aaron Baker, Surveyor
of Posey County, Indiana,
this 26th day of July 1868.

Witness my hand and official
seal.

Aaron Baker
S. P. C.

I, Henry Pitcher, do solemnly
swear that I will well and
truly perform the duties of
Flagman according to instructions
given me, and to the best of
my skill and ability, witness
my hand and seal this day,
26th of July 1868.
Henry Pitcher.

Posey County, }
State of Indiana } ss. Subscribed and
sworn to before me, Aaron Baker,
Surveyor of Posey County, Indiana,
this 26th day of July 1868.

Witness my hand and official
seal - Aaron Baker. *(seal.)*
J. P. C.

I, Burr Miller, do solemnly
swear that I will well and
truly perform the duties of
Axeman, according to instruc-
tions given me and to the
best of my skill and
ability, ^{his} Burr ^{mark} & Miller,

Posy County,
State of Indiana, }
Subscribed and
sworn to before me, Aaron
Baker, Surveyor of Posy
County Indiana, this 26th day of
July, 1868. Witness my hand
and official seal.
Aaron Baker.
J. P. C.

Field Notes of the Survey
of the Public lines, closing town
and around the "Yellow Pond"
situated and lying in Sections
Numbers 4, 5, 8 and 9, in Township
8 North, of Range 14 West, 2nd
Principal Meridian, Indiana.
The survey is a retracing and
renewal of the original
Survey by Arthur Henric in
1806, and of a resurvey and
meanders by C. G. Squibb in 1844.
Executed July 27th and 28th 1868
by Aaron Baker, Deputy Surveyor
under instructions from the
Commissioner of the General
Land Office, Washington, D. C.

bearing date June 16, 1868,

Began at Corner (numbered "1") on south bank or side of "Yellow Pond" made by Ct. G. Squibb 1844, This B. Oak good but the maple gone. Set an Oak Post for Meander Cor., from which a Water Oak 18 in. dia., bears Ct. 44° E, 28 lks. dist., A Black Oak 6 in. dia., bears S. $48\frac{1}{2}^{\circ}$ E. 10 lks. dist.

Hence I followed Ct. G. Squibb's Meanders in Section 8, around the West end of the Pond to Corner (numbered "2") on the Section line between Sections 5 and 8, I find the Meander Courses to close very nearly - much within the usual allowance for difference of measurements of 2 sets of Chainmen.

I find Ct. G. Squibb's W. Oak Corner-tree good, from which W. Oak 25 in. dia., Corner-tree, A Water Oak 24 in. dia., bears S. $13\frac{1}{2}^{\circ}$ W. 92 lks. dist.

Hence I followed Ct. G. Squibb's Meanders along North side of Pond in Section 5 to Corner (numbered "3") on Section line between Sections 4 & 5 on North bank of Pond, I find the Meanders to close very nearly exactly - (within a few links.)

I find Ct. G. Squibb's W. Oak very good, but the B. Oak is gone.

I set a Sassafras Post,

from which a water oak
24 in. dia. bears S. $11\frac{1}{4}^{\circ}$ E. $53\frac{1}{2}$
lks. dist.

Thence I meandered in
(Ct. G. Squibb's Meanders) Section 4
to Corner (numbered 4") on Section
line between Sections 4 and 9,
I find the meanders to close
again very closely - (within $13\frac{1}{3}$
links.) Set a Sassafras
Post. I find both of Ct. G.
Squibb's trees very good.

Thence I followed Ct. G.
Squibb's Meanders in Section
9 Around East end of Pond
to Corner (numbered 1") on
Section line between Sections 8 & 9,
at Starting Post. I find these
meanders to close not so
closely as the previous ones;
~~the~~ not waves, as they closed
within the legal limit of 1
chain and 50 links. I did
not go over them again.
A variation of $6^{\circ}18'$ was
used all around.

I then proceeded to make
the Section Corner common
to Sections 4, 5, 8, & 9 in the
Pond by crossing the Section
lines North and South, and
East and West, and at their
intersection planted a Sassa-
fras Post 30 inches in the ground
and about 3 feet above ground
and from which (with the proper
marks thereon) A water oak
24 in. dia. bears Ct. 8° E. $171\frac{3}{4}$ lks.
dist. A water oak 30 in. dia.
bears Ct. $13^{\circ}5'$ W. $186\frac{1}{3}$ lks. dist.

This Post is distant from Corner Cto. 1, on line between sections 8 & 9 on South side of Pond 6, $61\frac{1}{2}$ chains. It is distant from Corner No. 2 on Section line between sections 5 and 8, 12.43 chains. It is distant from Corner Cto. 3 on line between sections 4 & 5, on the North bank of Pond 2, 26 chains. It is distant from corner Cto. 4 on line between sections 4 & 9 33.99 chains. Cto bearing trees for Section Cor. 4, 5, 8 & 9 were taken in sections 8 and 9, owing to distance and difficulty from a wide fringe of Crooked-Brush and small Swamp-Maple, and 9 inches water in the Pond.

The Yellow Pond varies during the year from dryness to perhaps $2\frac{1}{2}$ feet of water in the wettest seasons. The soil is a cold and miserable white pipe-clay intermixed with small, hard and gritty grains of indurated clay, and is "unfit for cultivation," even if it was thoroughly drained. It is capable of being drained without a heavy expense. The vegetation is the usual Coarse Swamp-grass and Pond-lilies with a fringe of Crooked Brush and Swamp-Maple along its borders. It is considered worthless, indeed I would not take

it for my survey bill
even if it was drained.

List of names of the in-
dividuals employed to assist
in making the preceding
described survey, and showing
the capacities in which
they acted.

Zachariah Chittellon, Chairman,
David Sepler, Chairman,
Burr Miller, Axeman,
Henry Pitcher, Flagman,
Aaron Baker, Compassman.

Department of the Interior,
General Land Office,
September 24, 1868.

The foregoing field notes of
the survey of Yellow Pond
executed by Aaron Baker,
Deputy Surveyor, under special
instructions from the Commissioner
of the General Land Office,
dated June 16, 1868, in the
month of July, 1868, having
been critically examined,
the necessary corrections
and explanations made, the

said field notes and
the surveys they des-
cribe and hereby
approved.

Jos. S. Wilson,
Commissioner.
